

# EURAMED

European Alliance for Medical  
Radiation Protection Research

**The European Alliance for Medical Radiation Protection Research (EURAMED) is the leading European platform for research activities in medical radiation protection**

## VISION

Leading European research activities in medical radiation protection and harmonising clinical practice to advance the European radiation protection safety culture in medicine

## MISSION

- Improving medical care through sustainable research efforts in medical radiation protection
- Identifying common research areas
- Serving as a platform for medical radiation protection research
- Developing aligned approaches and responses to European research calls

**EURAMED was founded by five European medical associations:**

- The European Association of Nuclear Medicine (EANM)
- The European Society of Radiology (ESR)
- The European Federation of Organisations for Medical Physics (EFOMP)
- The European Society for Radiotherapy and Oncology (ESTRO)
- The European Federation of Radiographer Societies (EFRS)

# JOIN EURAMED

Institutions, organisations and individuals active or with an interest in the field of medical radiation protection research are invited to **apply for membership**.

- **Full members**

Institutions or organisations active in the field of medical radiation protection research

- **Associate members**

Institutions or organisations that do not actively practice medical radiation protection research, but that have a considerable interest in the area of radiation protection

- **Corporate members**

Enterprises interested in the activities and aims of the Society

- **Individual members**

Interested health professionals or scientists engaged in radiology, nuclear medicine, radiation oncology, medical physics, radiography or related fields

**EURAMED complements established European platforms in several other fields of radiation protection, will create visibility for the medical field in this context and looks forward to a fruitful dialogue and interaction with the other platforms to the benefit of Europe's patients.**

## Contact details

The administrative office of EURAMED is run by the European Institute for Biomedical Imaging Research (EIBIR).

You can contact us at [mhierath@eibir.org](mailto:mhierath@eibir.org)

## Executive Board

**President:** Boris Brkljacic, Croatia

**President-Elect:** Francois Paris, France

**Past President:** Klaus Bacher, Belgium

**Secretary:** Paddy Gilligan, Ireland

**Treasurer:** Graciano Paulo, Portugal

**Member at large:** Guy Frija, France

**Member at large:** Marc Benderitter, France
