#### Invited Speakers

Samuel Valable (ISTCT, Caen)  
Michele Mondini (Gustave Roussy, Villejuif)  
Claire Vanpouille-Box (Weill Cornell Med, New-York)  
Rob Coppes (UMCG, Groningen)  
Corinne Abbadie (CRCLille, Lille)  
Kirsten Lauber (LMU, Munich)  
Anna Fogtman (ESA, Cologne)  
Silvana Miranda (GSI, Darmstadt)  
Téni Ebrahimian (ASNR, Fontenay-aux-Roses)  
Christophe Badie (UKHSA, UK)  
Anthony J Chalmers (U. Glasgow, Glasgow)  
Germain Rousselet (CEA, Fontenay-aux-Roses)  
Alvaro Teijeira (CIMA, San Sebastian)  
Ana O'Loghlen (CSIC-RIB, Madrid)  
Lorenzo Galluzzi (FCCC, Philadelphia)

#### The workshop will address

- The effects of radiation on immune cells homeostasis and function, in healthy and pathological conditions,
- The effects of radiation on senescence, immunosenescence and organismal ageing,
- The direct (cell autonomous) and indirect (bystander) effects of radiation,
- The importance of radiation quality for radioprotection, medicine and space biology/travel,
- The dose/dose-rate relationship to effects (chronic vs acute, UHDR/Flash effect).

**Organizing Committee:** Serge Candéias, Umberto Galderisi, Florence Miller, Katalin Lumniczky, Udo Gaipl, Benjamin Frey

**Registration fee:** 170 €

**Important dates:** Abstract submission: **extended until March 13, 2026**

Registration: **March 13, 2026**

Registration and abstract submission forms at: <https://www.strahlenklinik.uk-erlangen.de/reis2026/>
